PROFESSIONAL SUMMARY

Results-driven full-stack developer with a strong foundation in modern web architectures and practical application development. Proven ability to design and deploy user-centered software utilizing frameworks like React and Node.js. Demonstrated commitment to technical excellence through rigorous training at prestigious national technology initiatives, including INSA and the Ethiopian Artificial Intelligence Institute. Adept at rapid skill acquisition, collaborative problem-solving, and translating complex requirements into functional solutions.

TECHNICAL SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, React, Node.js, Express.js, Python

Databases: PostgreSQL

Tools & Technologies: Git, Docker, Vite, Tailwind CSS, RESTful APIs

TECHNICAL PROJECTS

MedFinder | Full-Stack Developer

- Architected and developed a web-based pharmacy location directory designed to help users search for and locate available medications in local pharmacies.
- Designed the front-end user interface and built the back-end REST API architecture.
- Collaborated on a development team using version control to manage code and deploy the application.

AI Skin Disease Classifier | Project Lead

- Conceptualized a dermatological image classification application utilizing artificial intelligence for early skin disease detection.
- Drafted comprehensive system requirements, technical outlines, and presentation materials for project development.

Dev Notes by Sofi | Creator & Content Manager

- Manage a technical Telegram channel documenting software development progress, coding insights, and emerging technology updates.

EDUCATION, CAMPS & BOOTCAMPS

High School Diploma

Pan Nation Academy & Bistrate Gebriel International School — Graduated with an overall academic average of 89.34%.

Artificial Intelligence Summer Camp | Ethiopian Artificial Intelligence Institute

Summer 2026

- Engaged in an intensive hands-on program focused on artificial intelligence fundamentals, machine learning algorithms, and real-world tech applications.

Cybersecurity Summer Camp | INSA

Jul 2026 – Aug 2026

- Participated in an immersive technology camp focusing on secure programming, web development, and strategic problem-solving methodologies.

Full-Stack Development Scholarship | Evangadi Tech

- Selected for an intensive, project-based curriculum mastering AI-powered full-stack application development.

Software Engineering Bootcamp | AkibaHub
